

COMMUNITY CYBERSECURITY AWARENESS TRAINING

AWR-136 & MGT-384

DAY 1

AWR-136 provides participants with an introduction to concepts related to community cybersecurity. Participants will examine the different types of cyber attacks, how communities are vulnerable to cyber attacks and incidents, and what types of organizations are most likely to be targeted. This course will also introduce the participants to the Community Cyber Security Maturity Model and how to use the model to build a community cybersecurity program and their cyber resilience.

Prerequisites

FEMA / SID Number
 Students must register for and provide a SID number to access the class. Register online: cdp.dhs.gov/femasid

Recommendations

None

Course Length

4 hours

CE Credits

IACET - 0.4 CEUs

Participants

Public and Private Personnel Involved with:

- Critical Infrastructure
- Emergency Operations
- Incident Response.

DAY 2

MGT-384 provides participants an understanding of cybersecurity vulnerabilities, risks, threats and countermeasures. It examines how attacks and incidents can negatively impact emergency operations and response, daily workplace operations, and the community. This course will expand upon the Community Cyber Security Maturity Model and provide participants with low-to-no cost non-technical strategies they can use to increase their cyber resilience.

Prerequisites

FEMA / SID Number
 Students must register for and provide a SID number to access the class. Register online: cdp.dhs.gov/femasid

Recommendations

None

Course Length

12 hours

CE Credits

IACET - 1.2 CEUs
